# Max Schling's GARDEN MONTHLY

Vol. 2, No. 3

July, 1942

Every year, in the month of July, we issue a list of seasonable items that are ready for shipment during the months of July, August, September and October. Perennial seeds are best planted as early in the summer as possible and we give complete instructions on how to grow them on the inside pages. A small investment of seed can produce a valuable assortment of perennial plants.

In regard to Pansies and Delphiniums, we send nothing but freshly harvested seed this summer. The main purpose of this bulletin is to serve as a reminder that the season is at hand for the planting and sowing of the items that we have listed. The listing of fall-sown annuals appearing in this bulletin have been tested and found very satisfactory; in fact, we maintain that the only proper time of the year to plant annual Larkspur and Sweet Peas is in the fall as late as December 1st.

Last year we offered a new collection of Bearded Iris and this year we offer some newer selections that are still more beautiful.

We hope that your Schling garden is better than ever this year.

Respectfully, MAX SCHLING SEEDSMEN, Inc.

P.S.—Reserve the most treasured corner of your garden for some of Max Schling's seeds and bulbs.

## COLLECTION

The following varieties will insure a continuous crop of Strawberries from early June until late fall. Each variety listed has been selected as the best of its bearing season.

**DORSETT.** Extra early.  
**MARSHALL.** Midseason.  
**BIG LATE.** Late.  
**MASTODON.** Everbearing.

12 plants of each ( 48 in all) \$5.00  
25 plants of each (100 in all) 9.00  
50 plants of each (200 in all) 17.00

## Luscious Strawberries ~

## ARE YOURS FOR THE PLANTING

True Strawberry Flavor Can be Obtained When the Fruits are Garden Fresh

### STRAWBERRY PLANTING TIME — AUGUST TO OCTOBER

Pot-grown Strawberries only, are offered here, for we feel that only pot-grown plants can give the best satisfaction.

#### EARLY BEARING VARIETIES:

**Dorsett.** Undoubtedly the most popular variety. Bright rich red. Most delicious flavor.  
**Premier.** Uniformly big, shapely berries.

#### EARLY TO MIDSEASON:

**Fairfax.** Ripening after Dorsett. One of the best.  
**Marshall.** Gigantic dark crimson fruits.

#### MIDSEASON TO LATE:

**Chesapeake.** Mild, non-acid and sweet.  
**Big Joe.** Old favorite. Grows with almost no care in any soil.

#### LATE:

**Big Late.** Heavy producer. Berries held well above ground.

**Gandy.** Fine canning and shipping berries.

Price on foregoing varieties:

\$3.00 for 25; \$10.00 per 100.

#### EVERBEARING VARIETY:

**Mastodon.** Affectionately known as the Wonder Berry. Out-yielding some of the best early sorts in their regular season, it continues to produce throughout summer and fall. \$4.50 for 25; \$12.50 per 100.

## IRIS - They Lead the Beauty Parade

### NEW BEARDED IRIS ARISTOCRATS

Strong divisions ready for planting Aug. until Nov. 1st, sure to bloom next year.

The following Iris have been chosen for their outstanding beauty and vigor. They represent the opinion of several leading Iris authorities in the United States.

**Castalia.** A very beautiful light blue. 3 for \$1.25.  
**Cheerio.** Bright red and old gold. A gorgeous combination. 3 for \$1.25.  
**Eros.** Lovely large salmon-pink. Very shapely. 3 for \$1.25.  
**Gudrun.** Enormous pure white; golden beard. 3 for \$1.25.  
**Jean Cayeux.** Pale brown shot with gold. 3 for \$1.25.  
**Alice Harding.** Soft, satiny golden yellow. 30 inches. 3 for \$1.75.

COLLECTION: 1 each of 6 varieties, \$3.00; 3 each of 6 varieties, \$7.00.

### OUTSTANDING NOVELTIES — Selected for Iris Connoisseurs

**Amigo.** Light lavender-violet standard; falls deep violet. \$2.00 each.  
**At Dawning.** Standard soft yellow; falls rose-pink. \$1.50 each.  
**Jinny Sue.** Very fragrant. Gold and pink. Distinct. \$1.50 each.  
**Junealuska.** Iridescent rose, copper and gold. Very vigorous. \$1.50 each.  
**Missouri.** Over-all glowing lavender-blue. Very velvety texture. \$1.25 each.

COLLECTION: 1 each of 5 varieties, \$7.00. Double Collection, \$13.50.

### An Outstanding Offer of Undisseminated Bearded Iris Seedlings

Bred and Developed by F. W. Cassebeer

The hybridizer of these Iris, Mr. F. W. Cassebeer, is an acknowledged authority on Bearded Iris. The seedlings offered here are the result of crosses made from the finest existing named varieties, and we offer these selected unnamed seedlings with the positive assurance that they are superior to a great many high priced named varieties, and equal to the best.

We offer strong divided clumps grown and shipped direct from the hybridizer. The colors must, of necessity, be unknown and the added feature of these outstanding seedlings will be the element of delightful surprise.

Price: \$2.50 each clump consisting of no less than 3 rhizomes.

## PEONIES - For Best Results Plant Early

It is important to plant Peonies early so that the roots may begin a strong growth before hard winter sets in. While late planted Peonies produce very nicely, the difference between early and late planting is quite marked. Our tip is to plant as early in September as possible.

### Two Fine Collections

#### OLD FAVORITE COLLECTION

**Charles McKellip.** Full deep rich crimson. 75c each.

**Duchesse de Nemours.** White, center sulphur-white. 85c each.

**Duchesse d'Orleans.** Deep pink, center salmon. 75c each.

**Felix Crousse.** Even and clear red. 85c each.

**Marguerite Gerard.** Large; flesh turning bluish white. 85c each.

**Modele de Perfection.** Flesh-pink, bright rose center. 85c each.

COLLECTION: 1 each of the 6 varieties, \$4.50.

(This offer good until September first only.)

#### NEW AND RARE VARIETIES

**Adolphe Rousseau.** Dark red, shaded maroon. \$1.50 each.

**Frances Willard.** Ivory-white, center petals edged carmine. \$1.50 each.

**Mme. Jules Dessert.** Extra large, bluish white; fragrant. \$1.50 each.

**Mons. Jules Elie.** Blooms very large, light rose-pink. \$1.50 each.

**Primevere.** Outer row of petals white, center canary-yellow. \$2.00 each.

COLLECTION: 1 each of the 6 varieties, strong, 2- to 3-year roots, \$8.00.

# SCHLING'S HARDY PERENNIALS—Sow Any Time

**HOW TO GROW THEM.** Hardy plants (perennials) bloom the second year from seed and are permanent thereafter. Some of them may bloom the first year if the seed is sown very early. Among the perennials we find some of the most beautiful flowers for cutting and many of the old-fashioned sorts dear to our childhood memories. A hardy border properly planned and planted is a source of joy from early spring to late autumn; during that period it will be resplendent with color and yield an abundance of bloom for indoor decoration. The plants need little attention other than to be kept free from weeds and given an occasional top-dressing of plant food.

**WHEN TO SOW.** Seed may be sown in a hotbed in February or March, or out-of-doors from the first days of May to mid-August. It is well to sow as early as possible, thus permitting the plants to become strong and well established before winter.

**WHERE TO SOW.** For most perennials a cold frame is an ideal place for starting seeds, but if you do not have one, make a seed bed of finely sifted, light soil, adding and mixing thoroughly well-decayed manure, humus, or prepared plant food. Sow the seeds in shallow drills, covering 1/8 inch or more, according to the size of the seed, but very fine seed should only be lightly pressed into the soil.

**CARE OF SEEDS AFTER SOWING.** Press down the bed with a flat board, and water gently but thoroughly with a fine spray. Do not permit the soil to become dry while the seed is in process of germination, for until the plant develops roots its life depends entirely on

moisture. Nearly all failures in growing perennials may be attributed to drying in the seed bed, which should be carefully watched and watered until the plants have made from four to five leaves.

**CARE OF PLANTS AFTER GERMINATION.** Most seeds will germinate in from eight to fourteen days, but others may need a month or so; therefore do not become impatient. If seedlings come up very thickly, pull out some and transplant to boxes or other seed beds; later they may be set out in the permanent place. Transplanting should be done before October 1st, to permit the plants to become established before frost. Mulching the plants with leaves, salt hay, or peat moss about the middle of December is a distinct advantage. The leaves and hay must be removed in spring, but the peat moss may remain. Full cultural directions will be found on each packet of Schling's seeds.

Everybody wants perennials in generous measure, to secure effects in color and charm. If you delay and finally buy plants, an attractive perennial border may require several hundred dollars' worth of plants.

**Exactly the same results can be secured with \$10 to \$15 worth of Seeds!** And aside from the money-saving, you have the fascination of growing your own plants, nursing them from the beginning, and loving them all the more! **Sow your seeds now, and the plants will bloom next year.**

Varieties marked (\*) are suitable for rock garden.

	Height	Time of Flowering	Color	Pkt.
<b>Achillea ptarmica</b> , The Pearl	2½ ft.	June-Sept.	White	\$0.25

# Schling's Best Annuals for Fall Sowing

We consider it advisable to list annual seeds that are very satisfactory for fall sowing, hardy annuals whose seed overwinter in the open ground.

The advantage of fall sowing is very marked. As soon as the weather breaks the following spring, the seed will germinate and the seedlings will be very much farther advanced than from spring sowing or from the use of transplanted seedlings.

The best date to sow most of this seed is November 1st to November 15th. If large masses of Petunias are desired, nothing could be more satisfactory than sowing such varieties as Rosy Morn, Rose of Heaven, etc., in the fall.

The same rule applies to Mignonette.

Due to limited listings we offer here only the best of each variety.

## CENTAUREA CYANUS (Cornflower).

## Schling's Famous PACIFIC HYBRID Delphiniums

Our inability to import the famous English strains of Delphinium has not impaired in any degree the advances that are being made in the development of outstanding Gold Medal quality Delphiniums. The Pacific strain has definitely moved into a dominating position in the Delphinium world. Fresh 1942 harvested seed will be ready early in August and all of our orders will be filled from this seed only.

### 1941 Introduction

**Bluebird.** For the first time genuine true blue with white bees. Single flowers 2 1/2 inches in diameter. \$3.00 per pkt.

### 1940 Introduction

**Cameliard.** Pure lavender with white bee. \$1.50 per pkt.

**Galahad.** Pure white. Enormous size. \$1.50 per pkt.

**Round Table.** A preview of tomorrow's famous Delphinium varieties. All of the undissemated crosses are represented in this strain. \$2.00 per pkt.

**COLLECTION:** 1 pkt. each of the above new introductions, \$8.00 value, for \$7.00.

### Recent Introductions of Pacific Hybrids

**Black Knight.** Dark violet with black bees.

**Blue Jay.** Medium to dark blue. Dark bees.

**King Arthur.** Rich, royal purple, white bee.

**Guinevere.** Clear pink-lavender, white bee.

**Summer Skies.** Heavenly blue with white bee.

\$1.25 per pkt.

**COLLECTION:** 1 each of the 5 Recent Introductions, \$6.25 value, for \$5.00.

**COLLECTION:** 1 each of all of the above varieties—9 varieties in all—for \$11.00.

**Mixture of all standard colors of Delphinium Pacific Hybrids.** 75c per pkt.; 1/8 oz., \$2.50; oz., \$15.00.

### Pacific Hybrid Delphinium in Plants

We offer plants of these famous Pacific Hybrids under color only as a special offer. Strong clumps, \$1.00 each; \$11.00 per dozen, for delivery from September 1st on. Newer introductions will be available in plants at a later date. Look for our offers.

## Schling's Exhibition Pansies

Sow seed in July and August. We deliver only freshly harvested seed.

### EXCLUSIVE!

**Schling's Majestic Splendor Pansies—A new series.** One of the most masterly achievements in Pansy hybridization. An entirely new color combining a very early blooming quality with long stems, immense blooms, excellent form and substance, valuable for cut flowers and bedding. \$1.00 per pkt.; 6 pkts., \$5.00; 12 pkts., \$9.00.

### EXCLUSIVE!

**Schling's Canadian Super Giants.** Flowers often 12 inches in circumference. Stems 6 to 7 inches long. Truly a marvelous strain of exhibition Pansies. \$2.00 per pkt.; 6 pkts., \$10.00.

### SUPER-SWISS GIANTS:

**Alpenglow.** Red and wine shades.

**Berna.** Deep blue with contrasting deeper blotches.

**Lake of Thun.** Rich cornflower-blue.

**Yellow Master.** Pure golden yellow.

**Rheingold.** Golden yellow; five-blotched.

**Mont Blanc.** Pure white with beautiful blue eye.

**Super-Swiss Giants Mixed.** Pkt. 75c; 1/8 oz. \$3.50.

75c per pkt.;  
1/8 oz., \$3.50.

**COLLECTION:** 1 pkt. each of 6 separate colors, \$4.00.

### Other Famous Mixtures

**Schling's International Prize.** Pkt., \$1.00; 1/16 oz., \$2.00; 1/8 oz., \$3.50.

**English and Scotch Show Varieties Mixed.** Pkt., 50c; 1/16 oz., \$1.50; 1/8 oz., \$2.50.

**Triumph of the Giants.** Pkt., 75c.

**Bugnot's Giant Blotched.** Pkt., 35c; 1/8 oz., \$2.50.

**World Record.** Early flowering. Mixed. Pkt., 35c; 1/8 oz., \$2.00.

**Trimardeau Giant Mixed.** Pkt. 15c; 1/4 oz. \$2.00; oz. \$6.00.

### Schling's New Baby Pansies

Excellent for rock gardens and quite superior to Violas inasmuch as they are earlier and freer blooming.

**Baby Delight.** Light blue over all.

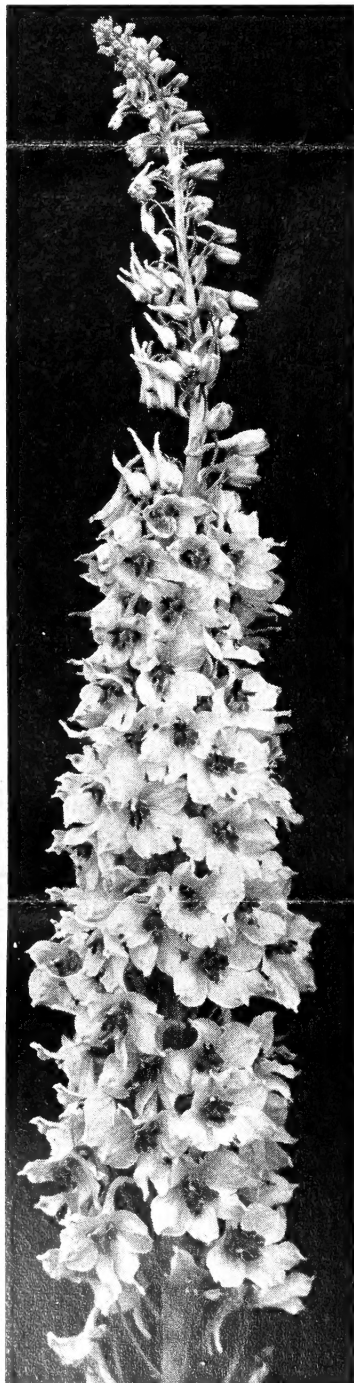

**Mrs. A. H. Scott.**

Upper petals pure white; lower petals violet. Pkt., 35c; 1/8 oz., \$1.25.

**NOTE:** Space does not permit us to present our complete list of Pansies. We are considered as authorities on Pansy varieties and Pansy culture, and we welcome all requests for information regarding the culture of Pansies and selection of varieties.
